

Holybrook Parish Council

Serving the communities of Fords Farm and Beansheaf Farm

Retention Policy/schedule

A Retention Schedule is a list of records that need to be kept by Holybrook Parish Council for a specific length of time.

This schedule contains recommended retention periods for records created and maintained by the Parish Council and refers to all information regardless of the media in which it is stored.

The aim of the Retention Schedule is to provide a consistent approach to the way the Council handles its records and provide a clear set of guidelines.

A Retention Schedule serves the purpose of identifying records that may be worth preserving permanently as a part of a local authority archive as well as preventing the premature destruction of records that need to be retained for a specific legal, financial or statutory period.

This Retention Schedule details the function of each record, the type of records that may fall within this function and the length of time the Council should hold the record before taking disposal or archive action.

Many retention periods are determined by statute.

All data and records (active and archive) will be stored in accordance with appropriate security requirements and in the most convenient and appropriate location. The degree of security required for file storage will reflect the sensitivity and confidential nature of the recorded material.

To summarise; the Council needs to keep accurate and timely records for the appropriate period of time, making sure that obsolete records are securely disposed of in an appropriate manner.

Holybrook Parish Council recognises that the efficient management of its records is necessary to comply with its legal and regulatory obligations and to contribute to the effective overall management of the Parish Council. This document provides the policy framework through which this effective management can be achieved and audited.

It covers:

- Scope
- Responsibilities
- Relationships with existing policies
- Retention Schedule

Scope of the policy

This policy applies to all records created, received or maintained by the Parish Council in the course of carrying out its functions. Records are defined as all those documents which facilitate the business carried out by the Parish Council and which are, thereafter, retained (for a set period) to provide evidence of its transactions or activities. These records may be created, received or maintained in hard copy and/or electronically.

Responsibilities

The Parish Council has a corporate responsibility to maintain its records and record management systems in accordance with the regulatory environment. The person with overall responsibility for this policy is the Data Protection Officer (DPO).

The DPO will give staff and Councillors guidance for good records management practice and will promote compliance with this policy so that information can be retrieved easily, appropriately and within an appropriate time frame.

Individual staff and Councillors must ensure that records for which they are responsible are accurate, and are maintained and disposed of in accordance with the Parish Council's records management guidelines. Individual Councillors may hold records securely in hard copy format or electronically at home or on their home computers. If a Councillor considers that some of these documents are important in the context of the Parish Council's records, they should ensure that the Parish Office retain a copy for the official record. Individual Councillors are strongly advised to undertake "weeding" and "housekeeping" on a regular basis.

Relationship with existing policies

This policy has been drawn up within the context of:

- Freedom of Information policy
- Data Protection policy/Publication Scheme

And with other legislation or regulations (including audit and Statute of Limitations) affecting the Parish Council.

Retention Schedule

The Parish Council is required to maintain a retention schedule listing the record series which it creates in the course of its business. The retention schedule lays down the length of time which the record needs to be retained and the action which should be taken when it is of no further administrative use.

Members of staff are expected to manage their current record keeping systems using the retention schedule and to take account of the different kinds of retention periods when they are creating new record keeping systems.

The retention schedule refers to record series regardless of the media in which they are stored. Please see Appendix 1

This policy will be reviewed annually by Holybrook Parish Council to ensure that it is relevant to working practice.

Adopted by Holybrook Parish Council:

..... **Chairman** **Date**

..... **Clerk** **Date**
